How to Turn Anytime Into “ME” TIME

1. Remove the protective disc from the jar and save. Using the provided spatula, lift an eye patch from the jar.
2. Apply an eye patch under each eye with the larger end of the patch pointed toward the outer eye.
3. Relax for 20 pampering minutes. Escape. De-stress.
4. Gently massage any remaining gel into your skin, and follow with your skin care routine, including your favorite eye cream.
5. Place the disc back inside the jar. Discard the used eye patches. Do not reuse them.
